**I am running to serve as
your Advisory Neighborhood
Commissioner (ANC).**

I am a **relationship-builder** who **respects and listens to all people**. I promise to work respectfully with all residents and other commissioners to solve problems and put the needs of our neighborhood first.

As your Commissioner, I will fight to:

- **Maintain a safe and vibrant neighborhood** with a high quality of life
- **Increase access to amenities**—such as housing and new businesses—while preserving our neighborhood's character
- **Ensure equity in educational programs and services**
- **Improve the environment for local businesses and entrepreneurs** by improving communication between business and government
- **Increase the transparency of ANC 4C business** by improving web site, e-mail, social media and print mail outreach

I also value **accessibility**: I will be easily reachable by phone, e-mail and social media, available for meetings, and will actively seek input on issues facing our neighborhood.
